

# induction

The most sophisticated electric cooking technology available. Induction is an exciting and rewarding method of cooking. Fast heating, highly efficient and excellent temperature control. Using a process of cooking using magnetism where the heat is transferred directly to the base of the pan. There is no conventional cooking element so the surface stays cooler. The sleek front stainless steel frame protects the front edge from accidental pan contact.

#### FEATURES

- European made ceramic glass top
- Touch controls
- Child lock – safety feature
- 9 Stage cooking settings
- Automatic pan sensor
- Automatic safety switch off
- Residual heat indicators
- Cooking Timer

Type of appliance	60cm Induction Hob
Model no.	EMIND64
Finish	Ceramic glass
Dimensions	590 x 520 x 55
Cooking zones	4
Zone ratings	
Total power (W)	7000
Front left (W)	1500
Rear left (W)	2000
Rear right (W)	1500
Front right (W)	2000
Functions/Safety	
Control mode	Sensor touch
Vitroc ceramic glass	Euroka
Power stage setting	9
Timer (min)	99
Pan sensor	●
Auto switch off safety	●
Child lock	●
Residual heat indicator	●
Voltage/frequency	220-240V 50Hz
Bench cut out size	490mm x 560mm
